## THE BRAND

Glow is the brand of Kirti Polymers , a leading company in the production of Pvc edgeband & Pvc Profile. The Idea of Glow Edgeband stems from a desire to product Pvc edgeband with outstanding quality and elegance, making them furnishing for all Furniture and kitchen manufacturer.

Kirti polymers was setup in 1999 in Shapar outskirts of Rajkot. A Manufacturing City in the Gujarat state of India.The Founder with his two sons,who from outset succeeded in combining innovation with product Quality.The company is firmly rooted in the local area and its historic values of Manufacturing. While Glow Edgeband concentrates on delivering High-quality Pvc edgeband and Pvc Profile,it also strives to cater for a multiplicity of tastes.

**PVC EDGE BAND** material used to seal the exposed and raw edges of the plywood. Pvc edge banding is most popular when using Pressure Laminated and Melamine Cabinets and Plywood. Traditional edge banding was a manual process requiring ordinary carpentry tools and materials. In modern applications, particularly for high-volume, repetitive manufacturing steps such as cabinet doors, edge banding is applied to the substrate by an automated process using a hot-melt adhesive.
